ASSETS: WHAT ARE THEY?

All facilities contain assets. From factories to facilities like hospitals, to hotels and schools; even our communities have assets that require scheduled maintenance and upkeep.

EXAMPLE OF ASSETS INCLUDE:

- Production machinery in a factory
- Ancillary equipment like air compressors, back-up generators, etc.
- Others such as Air conditioners, IT hardware, vehicles, furniture, etc.
- Tools like angle grinders, drills, lawn movers, etc.

**FACILITEASY
SOFTWARE**

**WHO
NEEDS
IT?**

SOFTWARE BASED ASSET MAINTENANCE PROGRAM IS OPTIMAL IF:

- your organization has 50 or more assets that requires scheduled maintenance
- your maintenance team relies on spreadsheets to track information such as Asset record, maintenance schedule, work assignment, etc.?
- your management does not get access to real-time information of asset condition and uptime metrics
- You need an easy reporting mechanism for any of your employees to report issues
